Company profile

Since the establishment, SonoScape has committed to provide high standard medical equipments for healthcare of human beings. Nowadays, we are specialized in manufacturing and developing ultrasound systems and transducers. It is our faith to supply customer-focused and reliable equipments for all clinics and hospitals.

Sonoscape has proudly introduced the world's first 15 inch LCD color HCU, and a lot of other high performance ultrasound systems and transducers. We will strive to provide the equipments with optimal price and state-of-the-art technology for clinical application, diagnosis and treatment.

Quote from the analyst of FROST & SULLIVAN

"SonoScape Co. Ltd. has exhibited exceptional entrepreneurial capabilities in developing S8 - the portable colour Doppler System. The advanced 4D capabilities of the ultrasound unit are customised for the high-end European market and yet available at much affordable prices. The company's priority in maintaining high levels of quality in its product lines is well supported by the negligible after-sales costs associated with its ultrasound systems. Also with the launch of SSI-1000, the hand carried ultrasound with multiple clinical applications; SonoScape has made significant strides towards establishing itself as a global medical equipment manufacturer."

Mr.Krishanu Bhattacharjee

Company Milestone

2002: Company Founded
2003: Released 1st 15" LCD Portable Color Doppler system in the world
2004: Released 1st PC platform Color Doppler system in China
2005: Awarded as the High Technology Company by the government
2007: Awarded as "CHINA TOP BRAND" in the Medical Equipment Industry
2007: Released 1st Real time 4D technology in China
2008: Awarded by FROST & SULLIVAN "European Entrepreneurial Company 2008"
2008: Awarded as the "Flagship Company" in the Medical Equipment Industry in China
2009: Awarded by FROST & SULLIVAN "Product Quality Leadership Award 2009"

SSI-6000

High Value for All Application

SonoScape
www.sonoscape.com

SSI-6000 is a full function color Doppler system which delivers astounding value in each ultrasonic diagnostic activity. Configured with the-state-of-art technologies, SSI-6000 presents premium color, power and spectral Doppler for a wide range of application fields. Therefore, SSI-6000 can provide full solutions for different clinical requirements.

Excellent Performance with Abundant Innovative Technologies

+ **Broadband Transducer Technology**
  Achieving better resolution in near field as well as better penetration in far field at the same time

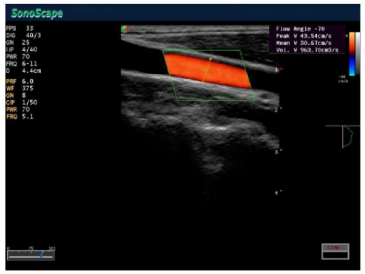

+ **High Density Transducer Technology**
  Support 256 elements high density transducer

+ **Unique μ-san Technology**
  Reducing speckles from images as well as enhancing the borders display of lesion

+ **Multi-beam Processing**
  Providing high quality image without sacrifice of time resolution

+ **Tissue Harmonic Imaging**
  Optimizing spatial and contrast resolution in grayscale imaging

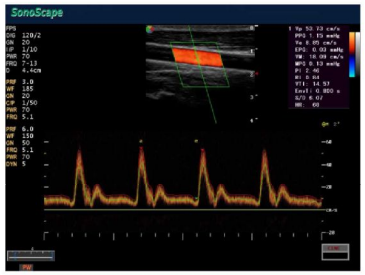

+ **Compounding Imaging Technology**
  Improving the contrast resolution of 2D images

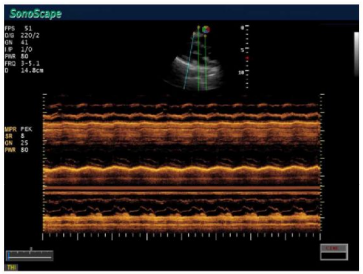

Automatic Flow Volume Calculation

IMT Measurement

PW Flow Trace

Steer M Mode - 3 lines

Advanced Software and Clinical Tools

+ **M-Tuning**
  One key automatically optimizing 2D and Doppler image
+ **Trapezoidal Imaging**
  Extending the field of view in linear transducers
+ **Panoramic Imaging**
  Providing an ultra-wide sight of big lesions
+ **Steer M Mode**
  Providing the real time M image with free angle adjustment
+ **TEI Index**
  A useful clinical tool for evaluating the diastolic and systolic function at the same time
+ **3D/4D**
  Standard 3D function is compatible with all transducers; and smart 4D function with multi-slice view and post processing function

Full Range Transducer Family

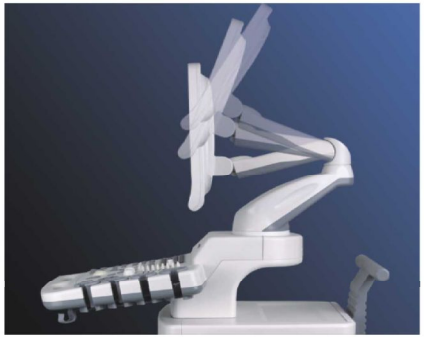

+ Convex
+ Phased
+ Transvaginal
+ Micro-convex
+ TEE
+ Intraoperative
+ Steel Biopsy kits
+ Linear
+ Pediatric Phased
+ Transrectal
+ Bi-plane Urology
+ Pediatric TEE
+ Volume 4D
+ Disposable Biopsy kits

Minimize Your Fatigue with Felicitous Ergonomic Design

- 17 inch LCD with articulate arm
- Three standard transducer sockets
- Intuitive control panel design
- Four USB ports with 160G Hard Disk
- Convenient front and back handles and four wheels with lock
